# AMAN RAWAT

**Software Development Engineer**

+91 7011134060 | amanrawat4060@gmail.com | House No – 212, Sainik Enclave Sec – 3, Mohan Garden, New Delhi, Delhi, India – 110059 | www.github.com/AmanRawatOfficial | www.linkedin.com/in/aman-rawat-6460701b9

## SUMMARY

Creative Software Developer with 1 year of experience in Front-End Development. Proven track record of delivering high-quality and scalable solutions. Proficient in a wide range of technologies including HTML5, CSS, SASS, JavaScript, TypeScript, React and NextJS. Strong problem-solving skills and a collaborative mindset for effective teamwork. Committed to staying updated with the latest industry trends and continuously improving skills.

## EXPERIENCE

Front-End Developer
**Lx Marketing Private Limited (luxuryliving.in)**
July 2022 – May 2023 (11 Month)                                                                                          New Delhi, Delhi

- Developed interactive user interface using React, HTML5, CSS and JavaScript.
- Implemented responsive designs and optimized web applications for various devices and screen sizes.
- Utilized Redux & Redux-Toolkit state management library to manage application state effectively.
- Integrated RESTful APIs and consumed data from Back-End services.
- Developed high fidelity mock-ups using Figma to visualize and iterate on design concepts.

## SKILLS

- HTML5, CSS, SASS, JavaScript, React, C/C++, Responsive Web Design.
- NodeJS, MongoDB, SQL, Python, TypeScript, Git, GitHub, OOPs.
- Figma, VS Code, MS Office, Linux, Data Structures, Algorithms, DBMS.

## EDUCATION

Bachelor of Technology – Computer Science and Engineering
**Bhagwan Mahaveer College of Engineering and Management – GGSIPU**
August 2018 – May 2022                                                                                                        Sonipat, Haryana

---------------------------------------------------------------------------------------------------------------------------------------

Senior Secondary School (11$^{th}$ and 12$^{th}$)
**Convent of Gagan Bharti Public School – CBSE**
May 2016 – March 2022                                                                                                         New Delhi, Delhi

---------------------------------------------------------------------------------------------------------------------------------------

Secondary School (9$^{th}$ and 10$^{th}$)
**Sunhill Public School – CBSE**
April 2014 – March 2016                                                                                                        New Delhi, Delhi

## PROJECTS / OPEN-SOURCE

**The Grand Hotel (Link)**                    React, React-Router, Styled-Components, React-Query, Supabase

- Developed a Hotel Management System using ReactJS, React-Query, Styled-Components & Supabase.
- Created an intuitive user interface (UI) with a focus on usability, accessibility, and modern design trends.
- Leveraged React-Query to efficiently store and retrieve data, improving application performance and scalability.
- Implemented security measures such as authentication, authorization and access control to protect sensitive user data.

**Picser (Link)**                    React, Redux, Tailwind CSS, React-Router, Sanity CMS, Google OAuth

- Designed and developed a full-stack social media image sharing application similar to Pinterest.
- Implemented Google OAuth for secure user authentication and authorization.
- Integrated Sanity CMS to manage and store image data, ensuring seamless content management.
- Implemented features such as image uploading, user profiles, image search, and social sharing functionality.
- Implemented a responsive and intuitive user interface, providing an optimal user experience across devices and screen sizes.

**Movie App (Link)**                    React, SASS, Redux, OMDB API

- Developed a movie search application using React.js, SASS, and Redux for state management.
- Utilized the OMDB API to fetch and display movie data, including titles, release dates, ratings, and plot summaries.
- Implemented a search functionality allowing users to find movies by title, genre, or any relevant keyword.
- Designed and implemented a responsive user interface with SASS for styling, ensuring a visually appealing and intuitive experience.

## CERTIFICATIONS

**The Ultimate React Course 2023: React, Redux & More (Certificate)**
Issued on July 2023 by Udemy

--------------------------------------------------------------------------------------------------------------------------------

**The Complete JavaScript Course 2022: From Zero to Expert (Certificate)**
Issued on Feb 2023 by Udemy

--------------------------------------------------------------------------------------------------------------------------------

**Introduction to CSS3 (Certificate)**
Issued on Oct 2020 by Coursera

--------------------------------------------------------------------------------------------------------------------------------

**Introduction to HTML5 (Certificate)**
Issued on Sep 2020 by Coursera
